Artificial Intelligence

artificial model learns human
then votes for human

1. Do you support an increase in the retirement age (e.g. to 67)?

Yes

Rather
yes

Rather
no

No

No
answer

Weight answer:

−

=

+

75 Questions

We used sample of 5k voters (smartvote has much more)

voting question →

human profile →

AI: BERT Training

Input: 59 text questions with answers,
followed by a removed single training
question Q_x

$$Q_1 A_1 \quad Q_2 A_2 \quad \dots \quad Q_{60} A_{60} \quad Q_x$$

Loss: How far is answer A_x by voter
from answer given by Bert

AI: BERT Testing

Input: 60 text questions with answers,
followed by a new question Q_{new}

$Q_1A_1 Q_2A_2 \dots Q_{60}A_{60} Q_{new}$

AI: Results

	Yes	-	No
Yes	26.3%	5.4%	8.3%
-	0.3%	6.8%	0.0%
No	12.2%	10.6%	30.0%

Baseline

	Yes	-	No
Yes	25.3%	3.6%	11.2%
-	1.4%	2.9%	2.6%
No	9.5%	4.2%	39.2%

Baseline

best politician (closest for 60 questions)
probably wrong canton (not electable)
probably not going to get elected

AI Refinements

human can check (and override) AI
human can choose new AI
multiple AIs, majority decision
combine with representation

AI Main Issue

language models are remarkable...

Q: I support an increase of the retirement age to 70. Do I support retirement at 80?

A: No. But I don't have a problem with 70, and I think it could be a good start.

AI Main Issue

language models are remarkable, but...

Q: I support an increase of the retirement age to 70. Do I also agree to retire at 60?

A: “No!” he said. Yevgeny Roizman, who is running for mayor of Yekaterinburg, ...

Friendly AI

artificial model learns human
but then only delegates vote to expert

Liquid Democracy / Delegated Voting

like representation
but more fine grained

voting question

human profile

Friendly AI Refinements

actual experts, not parties
combinable with other solutions

AI Bootstrapping

introducing AI party

wins 10% of votes at election

gets 10% of votes according to voters

Main Problems

minority protection
negotiating compromises
making proposals

	Yes	-	No
Yes	26.3%	5.4%	8.3%
-	0.3%	6.8%	0.0%
No	12.2%	10.6%	30.0%

	Yes	-	No
Yes	25.3%	3.6%	11.2%
-	1.4%	2.9%	2.6%
No	9.5%	4.2%	39.2%

Questions? Remarks?
